

I am concerned by the lack of notice / communication regarding the Les Halles project public consultation. There has been no visibility of said whether through public postings or the publication REGARDS SUR ANJOU, that I am aware of. The notice for the Public Consultation held Feb 27th was only received in my mailbox on February 27th. I am not convinced many local residents are aware of this project.

The creation of two 19 storey towers will completely change the landscape. I am concerned by the traffic that will be generated on rue Les Halles because of the densification - and ensuing increase in noise and more importantly, risk of accidents.

As well, the parking lot which will be severely reduced for patrons of Les Halles d'Anjou will be a deterrent to loyal shoppers such as myself.

I cannot see how this development is positive for current residents of the surrounding area / retailers in Les Halles.
