

## Project to Build a School in Iles des Soeurs

I am opposed that you build a school in the Parc La Fontaine triangle. I live on Place du Soleil and this project will impact on my quality of life for the following reasons:

There is hardly any parking on the street as it is right now. Where am I going to park when all the staff of the school will park on my street. Also what about the weekends, when there will be activities going on in the school, all year round. I pay enough taxes that I think I should have the right to be able to park on my street. I am a senior citizen and I can't park too far from my house, I have health problems.

The noise will be unbearable. Snow removal early in the morning, garbage trucks, school busses ,children yelling and screaming at recess. I won't be able to enjoy the tranquility that comes with living in Ile des Soeurs.

My beautiful park that I enjoy every day in the summer will no longer exist because eventually you will be building on it and it will be completely destroyed. Many mornings I go to the park and bring my coffee and read my newspaper while listening to the birds and enjoying nature. I am so sad that this will no longer exist.

I beg of you to find another location for the school. It would be so much appreciated for the seniors living in the area.

Yours truly,

Janet Parento-
