

The proposed project will have a significant impact on the wildlife that currently inhabits the territory. The addition of thousands of homes, people and cars will endanger the lives of thousands of mammals, birds, reptiles, plants and trees. These deaths seem to have no weight in the decision to go forward with the project. The preservation of some land for an urban park will not allow many animals to inhabit the area peacefully. Tensions between conflicting needs of people and animals will surface. The wildlife will have no rights or protection. As a lifelong inhabitant of l'Anse a l'Orme bay I am opposed to the development of Pierrefonds Ouest because it will not improve the quality of life of any residents, human or animal. It will enrich the far removed and powerful land owners and impoverish those that actually live, love and play on the territory

Chantal Jacques
