

Hi,

I am a resident of the Shop Angus and I want to express the fact that I am completely opposed to the affordable and the social housing aspect of this project. I came to this area because of the prestige and my house taxes definitely demonstrate it (i.e. always on the rise ). I am even considering selling my house due to this project (affordable and social housing) and everyone that I speak to can't understand why the project includes such type of housing. I believe by adding such housing the value of the houses in Angus will drop which is disadvantageous to all the residents.

Thank you.
