

Good day,

I want to express my discontentment and total disagreement with the New construction on the Angus Shop Neighborhood for Social Housing.

I believe this is going to take away the reason for being, tranquility, security of Why the owners of the properties in the Angus neighborhood bought there homes here in the first place. By building social housing in this neighborhood our properties will go down in value and who is going to compensate us for that? Our clean and quite neighbourhood won't be anymore. Please cancel this project.
